

How to connect a client to the Cafeteria EN-Exchange and Exclude Plans

Step 1: From the client's home page, select Cafeteria under Admin Only:

employee last name or full SSN	Q				
Welcome back, Emily!					
Things to do		Completed			
Complete employees missing HR required	l fields	965			
Review invalid address		601			
Quick Links		🌣 Customize			
Add Employee	Ad-hoc Reports	Org Chart			
Import Employees and Enrollment	View/Manage Saved Reports	Add Document			
Add Company Note	New Hire Reports	Login Status Report			
Add Employee Note	Termination Report				
Admin Only ¹					
Enrollment Editor	COBRA Participants	Brokers			
Review Insurability Requests	Carrier	COBRA			
Benefits	Cafeteria	Administration Services			

Step 2: Select 'add a service,' then from the drop down find the vendor you are connecting to, then click 'add.'

Data Feeds beta	Cafeteria Data E	xchanges			
Broker Carrier	This feature allows for the automated push of employee and dependent enrollment to select carriers without using traditional carrier file feeds.				
→ Cafeteria COBRA	It is <i>not</i> visible to HR us	sers.			
Administrative Services Quoting Engines ^{alpha}	add a service + Product Name	Group	Identifier	EN Identifier	Status
Ad Hoc Audits ^{alpha}	No products have been sele	cted			

Note: You DO NOT have to use subscriber groups. It is best practice to select 'All Employees'

Add Service		Return to Service List
 Partner Selection Contact Info 	Select an available service: - Select Product -	
Company Info	Select which employees should be included: Select a service to see employee options.	
		Add Cancel

Step 3: There will be a screen displaying company information. Complete any fields that have missing data.

Step 4: The next page will display brokers, premier users and HR users for the company. Select a contact that you want for your primary subscription contact.

Step 5: Verify the benefits that will be sent for this client. Any of the benefits NOT SELECTED will send on the file. If your vendor administers your client's FSA and Dependent Care but not their Health Savings Account (HSA) then you would want to exclude the HSA.

Click on the 3 dots on the right and select 'exclude benefits/plans.' Select the box next to benefit if the benefit **should not** send on the file. Leave deselected if the benefit *should* send on the file.
